

## Hon. Dr. Tolmie Placed Policies Before Hazelton Audience Saturday Night

On Saturday evening last Hon. Dr. Tolmie, leader of the Conservative party in British Columbia, placed before the people of this district his ideas on conducting provincial business and just why he thought the people of the province should change the government on July 18 next. The new Conservative leader was accompanied by Canon Hinchcliffe, of Victoria, one of the stalwarts of the Opposition in the last Legislature. These men were met at Hazelton by F. M. Dockrill, Conservative candidate for Skeena.

The train was on time, unlike the freight which brought the premier a week previous, and the meeting got started soon after half past eight. R. S. Sargent occupied the chair and extended a hearty welcome to the leader and to Canon Hinchcliffe. The hall was about three-quarters full, a very good attendance considering that only a day or two notice had been given and due to a baseball game at New Hazelton the same evening.

Dr. Tolmie is not a stranger in this country by any means. He has travelled much of it before and was so impressed with it that he, on several occasions in the House of Commons at Ottawa, urged the government to establish in this north country an experimental farm. Being a farmer himself he is always studying ways and means of improving conditions on the farm and that will be one of his great aims, if elected to head the government of British Columbia on July 18.

Mr. Dockrill was the first speaker but as he will be around again shortly he confined himself to expressing his pleasure at being the Conservative candidate in Skeena, and especially under the leadership of a man of the caliber of Hon. Dr. Tolmie, one of the front rank agriculturists and statesmen in Canada; and one who usually got what he went after. He instanced the lifting of the embargo on live cattle from Canada entering England and the standardization of the bacon trade in Canada, two most important factors in farming. Dr. Tolmie has always fought for the farmers of Canada and particularly those in B. C. In closing Mr. Dockrill said that it was a well known fact that governments do change in Canada and in the provinces, and that a change in British Columbia was due on the 18th of July. After that date he predicted that Dr. Tolmie would be premier of B. C.

Canon Hinchcliffe made his maiden speech before a Hazelton audience and as a starter he referred to "the pleasant ways Premier McLean had of dealing with public business" as reported by a local paper of his speech at Smithers recently. Canon Hinchcliffe agreed that the premier certainly had a pleasant way of dealing with the public business. Dr. McLean reduced taxes by pleasantly taking out of the pockets of the people of British Columbia several millions of dollars extra every year. In 1926-27 the provincial taxes were \$17,761,000; in 1927-28 they were pleasantly increased to over 19,000,000 and for 1928-29 there is an estimated further pleasant reduction to \$20,000,000.

The speaker then referred to the P. G. E. which the Liberals claim was left to them by the Conservatives. It is a fact that the P. G. E. was left by the Conservatives, but the Conservatives left that road under contract to Foley, Welsh and Stewart, three men quite capable of carrying out their

contract, to complete that road from Vancouver to Prince George. But the Liberals released those men from the contract and that release had already cost the province over forty millions of dollars.

Canon Hinchcliffe pointed out numerous inaccuracies in Dr. McLean's reported statements, the most glaring of which was that "no Conservative government in Canada had ever put a line of social legislation on the statute books." The premier, he said, had made that statement in several different places. The speaker then told of the social legislation passed by the Conservative government in B. C. one of which was the Workman's Compensation Act, the greatest piece of social legislation ever passed; and several other important acts. What social legislation that was good and which the Liberal government had passed, had had the unanimous support of the Conservatives.

Hon. Dr. Tolmie was given a warm reception when he was called on by the chairman. He was glad to have the privilege of addressing the Hazelton audience at this time. A year ago he was unable to make a stop here as planned owing to trouble on the railway. In opening his remarks he expressed the belief that B. C. was not making the progress it should be. A great deal of the boasted prosperity the Liberals talked about was far from being of the practical kind that the people could feel in their pockets. The speaker then dealt with the tremendous increase in the debt of the province since 1916 when the Liberals assumed power in this province. That debt had increased from \$14.44 per head of population in 1916 to \$40.10 in 1927. It is now the highest in the Dominion. Much of this increase was due to extravagance, over payments on contracts, over expenditure, in all departments of the government. He pointed out that such loose methods would not be tolerated in any private institution, nor even in the dominion government at Ottawa. What we in B. C. want is practical prosperity, the kind all can feel, and not the kind that has to be explained by government lantern slide machines.

On the hustings the premier tells you the debt of the province is \$41,000,000, but when the government goes to financial men to borrow money and have to give the true debt, they give it as \$82,000.

Dr. McLean tells you that he has every confidence of the sale of the P. G. E. going through. On the floor of the House at Ottawa, Hon. Mr. Dunning, minister of railways, said quite recently, that he knew nothing of any arrangements to buy the P. G. E. It would have to be considered along with railways in other provinces and that no deal could be made without it first being submitted to parliament.

The Liberals tell you that McLean is a new broom, but Dr. Tolmie said that he was an old broom, a twelve year old broom that had been worn down to the butt. He was one of the first cabinet formed by the late Mr. Brewster in 1916 and is responsible for all that has been done by the Liberals since that time. It was therefore a question for the people to decide, whether they wanted that old broom, with a few new straws tied to the old butt, or to choose an entirely new broom and a new slate on July 18.

Dr. Tolmie thought it was funny the

## Good Surface Showings Over Mohawk Mine

The Mohawk property on Four Mile mountain is looking very favorable as a result of work done the past two weeks. A great deal of surface work has been done in the way of stripping and there is a splendid showing of ore of good values. If the ore is as good under ground as on the surface there is a good mine in the Mohawk alone. The under ground work consists of drifting along the granite contact and there has been a good grade of ore all the way, but there is a fault in the formation and until the engineer has made a study of it and ascertains its extent and course, progress will be more or less slow. The present work is with a view to overcoming the fault and Mr. Lewis expects to accomplish his purpose any day now. Mr. Berge one of the chief engineers of the Federal and of the American Mining & Smelting Co. has been delayed in getting here to consult with Mr. Lewis, but is expected any day. Mr. Lewis is waiting for him before he goes to another property on the P. G. E. where he will spend a few weeks.

## Local Items

Wm. McAdam, accompanied by an engineer, is expected here in a few days to start something on the American Boy.

The public schools are closed for the summer vacation. The entrance class is writing at New Hazelton this week with Miss Mallott of Terrace presiding. Miss Mallott arrived Saturday evening. Miss Richardson leaves this week for her home at Chilliwack and will not be back next term. She has many friends here who regret that she has decided not to return.

Fred Nash returned to Terrace last week after completing a survey for the Silver Cnp tram line.

W. B. Dornberg will arrive from the south the end of this week to look over his property on Nine Mile. He will make known his plans regarding a mill and the transportation of equipment and ore.

The candidates are busy chasing about the country. Dr. Winch left on Monday for Port Essington and the other coast points and Mr. Dockrill is in the east and may be in the west by the time the paper is out.

Dr. H. C. Winch, Liberal candidate, will hold a public meeting in New Hazelton on Friday evening for the purpose of discussing the political questions of the day. A cordial invitation is extended to all to hear him.

The northern interior has been getting an over dose of hot dry weather for three or more weeks and it is not so popular in such large doses as might be expected. Crops, both farm and garden are suffering, while the hay crop will be the smallest ever cut in the north. So scarce is the hay and so poor the outlook for any improvement that some of the farmers have started in to reduce their herds before fall.

On Tuesday evening of this week the young people gave a dance in honor of Miss Richardson who left Wednesday morning enroute home after having spent two years in charge of the New Hazelton school. There was a good crowd present and an enjoyable evening was spent.

## Five Hundred People Heard the Tory Leader

On Sunday morning Hon. Dr. Tolmie, Canon Hinchcliffe and F. M. Dockrill left by motor for Smithers to meet the people there and to meet them again in the afternoon at Lake Kathlyn. That gathering in the afternoon was the largest ever seen in the vicinity of Smithers. Fully 500 people were present, including representatives all the way from Hazelton to Burns Lake. The parking space at the lake was taxed to the limit, all anxious to meet the new leader of the Conservative party.

Dr. Hankinson of Smithers was the chairman for the afternoon, and after a word of welcome to the people and to the speakers he called on Mr. Dockrill who only occupied a few moments in which he expressed his pleasure at seeing so many present and then gave way to Dr. Tolmie.

Hon. Dr. Tolmie expressed his great pleasure at seeing so many people gathered together. He said that as it was Sunday, and as it had not yet become customary to hold political meetings on Sunday in any province in Canada except Quebec, he would not like to establish a precedent without due consideration and without consulting with his colleagues. The doctor then spoke for an hour giving a very clever outline of British Columbia, its history, present development and its possibilities when it came into its own. There was nothing in his speech at any time which savored in anyway of politics, and it was accepted by the people in a spirit complimentary to the speaker and to themselves.

Canon Hinchcliffe took the day off. At night Dr. Tolmie visited Duthie Mines and on Monday left for Burns Lake where he held a meeting at the noon hour and addressed a large number of people of Omineca.

## PARENT TEACHERS MET

Numerous Subjects Discussed and Closed With Musical Programme

The Parent-Teachers' Association held its regular meeting in the school on Thursday evening and there was a large attendance. Rev. W. Allen occupied the chair. There was a discussion as to securing pictures for the school and the principal is to secure information while he is in Vancouver. Capt. Colthurst presented the P. T. A. with a picture of the Fathers of Confederation. There was some talk about a swimming pool and Capt. Colthurst will investigate the possibilities. The president introduced the subject of the children purchasing all their new school books during the summer holidays and thus save much valuable time at the reopening of the schools. Miss Davis discussed the matter of forming a junior Red Cross here. After short speeches by the president and Capt. Colthurst the following program was rendered and then refreshments were served:—

Piano solo—Annie Allen.  
Solo—Mrs. Allen.  
Piano solo—Miss Janet Young.  
Solo—Rev. Allen.  
Recitation—Mr. Attree.  
Duet—Rev. and Mrs. Allen.

One of the attractions at Smithers on July 1st. will a ball game between the New Hazelton youngsters and the Smithers team.

Mrs. H. E. Thornton and two sons left Friday evening for Prince George to spend the next couple of months.

## Terrace Pioneer Passed Away While at Work

News of the sudden death of E. F. Michaud, which took place in Usk during the forenoon of Thursday, June 14, was a shock to his relatives and many friends in the district. Although he had not been in good health for some time he was able to resume his work a short time ago and was cooking for the survey party camp at Usk. He was last seen about ten o'clock and it was thought death occurred soon after as the morning work at the camp had not been completed. There were no signs of suffering. The passing of Mr. Michaud was not discovered until the men returned to camp in the evening for supper.

The deceased was born in Brighton, Colo., in 1865. He was of a race of pioneers and the lure of the north attracted him and his brother Fred who made the trip up the Skeena in 1904. He was followed later by his father, who passed away the fall of 1906. The two boys were joined later by a younger brother and a sister. The deceased was the first settler in Lakelse Valley and his brothers are there, well known as fruit growers and nurserymen. In 1916 deceased located in Kalum Valley where he had charge of the telegraph office and post office for some time. He leaves to mourn his loss a sister, Mrs. T. J. Kirkpatrick, two brothers, Fred and Bert, all of Terrace.

In the passing of Ed. Michaud the district loses one of its earliest settlers and a respected citizen. The funeral service was held in Knox United church on Friday evening at 7.30 Rev. W. Allen conducting them, assisted by Rev. Robinson. The remains were laid at rest in Kalum cemetery. The pall bearers were Geo. Little, J. K. Gordon, O. T. Sundal, Robt. Corlett, E. T. Kenney and John Vigers, all pioneers in the district. There were many floral tributes laid on the casket, in token of the high esteem in which the deceased was held.

## PROMOTION EXAMINATIONS

The promotion examinations at the New Hazelton school resulted as follows, names in order of merit:—

Into grade 8—John Smith, Earl Spooner, Arthur Willan (on trial).  
Into Sr. 7—Delcourt Parent, Orrice Sargent, Hugo Johnson, Clara Schultz.  
Into sr. 6—John Sargent.  
Into sr. 5—Fred Thornton, Kathleen York, Lawrence Willan, Peter Smith.  
Into sr. 4—Catherine Smith, Egill Sargent, Kenneth Smith.  
Into sr. 3—Alexander Harris, Eric Johnson, Stanley Willan, Charles Bugg, Edith Bugg.  
Into sr. 2—Carl Christanson, Fred die Salt, Howard Thornton, Eric Sargent, George Bugg, Frank Walters.  
Rolls of honor:—  
Proficiency—Delcourt Parent, John Smith, honorable mention.  
Department—Clara Schultz.  
Perfect attendance—Peter Smith.

On Saturday night the Terrace baseball team came to New Hazelton to play the local boys. Owing to no notice having been given the attendance of spectators was very small. In a seven inning game the local boys won by a score of 6 to 8. After the game an impromptu dance was given. The visitors seemed to have had a good time in spite of their defeat. A return game will be played in Terrace in the near future.

C. W. Dawson, proprietor of the Omineca Hotel at Hazelton, was taken seriously ill on Thursday night last and was taken to the hospital. He is now almost himself again.

## BRITISH COLUMBIA

THE MINERAL PROVINCE OF WESTERN CANADA  
HAS PRODUCED MINERALS VALUED AS FOLLOWS:-

Placer Gold, \$78,018,548; Lode Gold, \$126,972,318; Silver, \$80,787,003; Lead, \$106,976,442; Copper, \$209,967,068; Zinc, \$50,512,557; Coal and Coke, \$284,699,133; Structural Materials and Miscellaneous Minerals, \$50,175,407; Making mineral production to the end of 1926 show

AN AGGREGATE VALUE OF \$988,108,470

The substantial progress of the mining industry in this province is strikingly illustrated in the following figures, which show the value of production for successive 5-year periods:

For all years to 1895, inclusive	\$ 94,547,241
For five years, 1896-1900	57,607,967
For five years, 1901-1905	96,507,968
For five years, 1906-1910	125,534,474
For five years, 1911-1915	142,072,603
For five years, 1916-1920	189,922,725
For five years 1921 to 1925	214,726,650
For 1926	87,188,842

PRODUCTION DURING LAST TEN YEARS, \$429,547,755

Lode mining has only been in progress about 25 years, and only about one-half of the Province has been prospected; 200,000 square miles of unexplored mineral bearing lands are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than any other Province in the Dominion or any Colony in the British Empire. Mineral locations are granted to discoverers for nominal fees. Absolute titles are obtained by developing such properties, security of which is guaranteed by crown grants.

Practically all British Columbia mineral properties on which development work has been done are described in one of the Annual Reports of the Minister of Mines. Those considering mining investments should refer to such reports. They are available without charge on application to the Department of Mines, Victoria, B.C. Reports covering each of the six Mineral Survey Districts are published separately, and are available on application. Reports of the Geological Survey of Canada, Winch Building, Vancouver, B.C., are recommended as valuable sources of information.

Full information, together with mining reports and maps, may be obtained gratis by addressing

The Honourable The Minister of Mines  
VICTORIA, BRITISH COLUMBIA

## Women will know This to be True!

Haven't you found this to be true—that one batch of flour will give you certain results but that the next time you bought the same brand your results would be quite different. Now, the big flour companies employ chemists to see that their flours are kept to a constant standard. Drugs, like flours, may be thoroughly pure but of a variable standard. Think what this means in the effectiveness of your doctor's prescriptions.

Ormes buy their drugs only from manufacturers who guarantee that their products are not only 100 per cent. pure, but that their strength is as unvarying as the daily round of the sun.

### Leaders Have Been Heard

The Premier of British Columbia, Hon. Dr. McLean, and the leader of the Conservative party in this province Hon. Dr. Tolmie, have both been here and placed before the electors their ideas of handling the public business of the province. Both put the most favorable side before the people and all the electors have to do is to pick the one they like best. Both men are well known in public life in the province. The premier has been in the cabinet since the Liberals were elected to power in 1916. He has held a number of different portfolios and is now asking for support on his record and on the record of the Liberal government. On the other hand Hon. Dr. Tolmie is a native son of B. C., was brought up on a pioneer farm, has been a farmer all his life, holding positions in the agricultural departments and twice was minister of agriculture for short periods. He was even offered that portfolio in the present government at Ottawa, so highly is he regarded as an agriculturist. He outlined a number of new policies he will put into effect should he be chosen by the people to lead the government.

The local candidates, Dr. H. C. Winch for the Liberals, and F. M. Dockrill for the Conservatives, are well known and respected citizens. Dr. Winch has had four years at Victoria and knows his way about, but Mr. Dockrill is not backward and he would not be long in learning the ways of the mighty. Both men have many friends and admirers and they number many of the same people among their friends, so that it looks as if the election will be won in Skeena on the policy of the respective parties rather than on the personalities of the local candidates.

### CARE OF CHICKENS ON RANGE

The simpler methods of feeding and caring for the chicks that can be adopted the better.

Feeding tests at the Central experimental farm have shown equally as good results from hopper feeding as when the chicks were fed at regular intervals, five or six times a day. When the nursery period is past and the chicks are old enough to go with out heat they should be given roosts and as soon as they become used to them should be put on the range.

For range a light sandy soil is best. If a field of alfalfa is available on the one hand and corn on the other the conditions are ideal.

Do not overcrowd; use airy, well ventilated houses a mere shelter, a roof with walls covered with wire-netting we have found excellent.

Shift the houses and feed hoppers frequently so that the ground where the chicks spend most of their time does not become contaminated.

Keep a supply of pure water, hoppers of growing mash crimped oats, grit and oyster shell before the flock at all times. Give a full feed of grain in the evening; this is fed either by hand or kept in hoppers which can be opened for a while in the evening and closed through the day.

Chickens reared as described will be reared under ideal conditions with the minimum amount of labour.

couple or three days for the next. Now he lets out a squawk if he misses one section of a revolving door.

A youth met a maid at the shore, and he said your the girl I adore; I trust, yes I do, That I'll see more of you," and she blushed, and he wondered what for

## SYNOPSIS OF LAND ACT AMENDMENTS

### PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emptions is given in Bulletin No. 1, Land Series, "How to Pre-empt Land," copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timberland, i.e., carrying over 5,000 board feet per acre west of the Coast Range and 8,000 feet per acre east of that Range.

Applications for pre-emptions are to be addressed to the Land Commissioner of the Land Recording Division in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emptions must be occupied for five years and improvements made to the value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin, How Pre-empt Land.

### PURCHASES

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price of first-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage.

### HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and the land has been surveyed.

### LEASES

For grazing and industrial purpose areas not exceeding 640 acres may be leased by any one person or company.

### GRAZING

Under the Grazing Act the Province is divided into grazing districts, and the range administered under the Grazing Commissioner. Annual grazing permits are issued, based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partially free, per-

Thos. Brooks left Sunday for Prince Rupert to attend the assizes.

Rev. T. J. Marsh was a guest of his friend H. Y. Wilson in Remo.

Mrs. W. E. Smith returned Wednesday after an absence of two weeks in the south attending the Rebekah convention in Chilliwack from June 12 to 14th.

Mrs. T. J. Marsh returned Friday from Prince Rupert where she attended the W. A. convention in the cathedral.

Rev. W. A. Robinson, speaker at the W. A. convention in Rupert, returned to Terrace last week.

Mr. and Mrs. Judson visited Rupert last week.

Mrs. Doll and three daughters spent the week end at Woodcock.

Mrs. Thos. McCubbin accompanied her daughter to Terrace on Monday where the daughter will write her entrance examinations.

Ab. Moore and Frank Hipp left Saturday morning for Anyox for the summer vacation.

Mrs. W. F. Lindsay left Monday for Milwaukee, Wis., where she will spend the summer with her mother and other relatives in the east.

Mrs. A. W. Robinson left Monday for Winnipeg to spend a month with her mother.

Miss Mallott and Miss Easthope accompanied the base ball boys to New

Hazelton on Saturday. Miss Mallott remained there to preside at the entrance examinations this week.

Mr. and Mrs. Geo. Keith entertained at whist on Wednesday evening. The prizes were won by Mrs. Judson and R. L. McIntosh. There were four tables. After the whist a pleasant hour was spent when some excellent music was provided. With the refreshments the hostess was assisted by Mrs. E. T. Kenney and Mrs. A. H. Barker.

W. H. Watt suffered a severe cut on his ankle last week. He was peeling timber and a man behind him was on the same work and lost control of his ax. It hit Billie. He expects to return to work in a few days.

Mrs. Stewart of Kalum Lake returned the end of the week after a pleasant holiday in the south.

Mrs. Hunter left Monday for Prince Rupert to enter the hospital.

Six local pupils and a number from outside points are writing the entrance examinations here. Miss Elderkin is

Misses Mallott and Easthope were hostesses on Friday afternoon when they gave a farewell tea to a number of their friends. Both young ladies have decided not to return to Terrace at the close of the summer holidays. Miss Mallott has been here for three years and Miss Easthope for two years and they have both been successful in their school work and active in the social life of the town. They have a large number of friends who regret their departure.

## Students Passed

The following is a list of the promotion examinations at the Kitsumkalum school:—

To high school on recommendation—Theo. Colthurst, John Smith, Mary Hipp, Margaret Sillis, Mona Greig, Margaret Glass, Annie Allen, Lillian Christy, Janet Young, Ethel Moore, Dorothy Frank, Mildred Kirkpatrick, Donald Burnett, Fred Thomas.

Those writing departmental exams.—Carmen Smith, Helen Greig, Howard Willson, Margaret McLean, Wesley France, Dudley Little.

In order of merit.  
Grade 7—(with honors) Doris Houliden, Billy Allen, Swaine Defontaine, Kenneth Kerr, Annie Lips.

(Passed)—Bertha Bjornson, George Anderson, Edna Dover, Bertha Moore, Jack Sparkes, Adeline Thomas Frank Green.

(Passed on trial)—Hugh McConnell and Mary V. Smith.

Grade 6—(Passed with honors)—Helen Glass, Fred Mist.

(Passed)—Earnest Taft, Rita Taft Sophia McLaren, Helen Smith, Florence Desjardins, Lloyd Thomas, Edith Kohne, Margaret Cook, Jerry Sims, Velma Greig, Fred Nash, Mary Smith, Lorna Christy, Walter McConnell, Dorothy Martin, Rose King, Grace Bedon.

Grade 5—(Passed)—Alair Lips, Jenn Dover, Theresa Desjardines, Tony Hipp, Marjorie Kenney, Joyce Cole, Theodore Robinson, Norah Diggle, Hugh McCulloch, R. Downing, Glen France.

(Passed on trial)—Mable Bishop, George Bird, Laura Bjornson, Lawrence Sillis.

Grade 4—(Passed with honors)—Adella Haugland, Mary Maxan, John McCulloch.

(Passed)—Buster McCulloch, Gertrude McConnell, Jenny King, Barbara Sherwood, Francis Smith, Cissy Richmond, Roy Reid, John Christy Billy Downing, Bruce Smith, Jim Richmond, Sidney Scaman, Dorothy Head, Joe Hipp.

(Passed on trial)—Archle Finter, Agnes Olson, Charlie Prosser, Kathleen Sillis, Margaret Clayton.

Grade 3—(Passed with honors)—Jack Allen and Eileen Taft equal, Ruth Little, France Dover, Doreen Willson, Benny Scaman.

(Passed)—Margaret Houliden, Jimmy Smith, Norman Chapman, Audrey Diggle, Theresa Sillis, Billy Cooper, Harry Attree, Lloyd Jones (absent for exams.)

(Passed on trial)—Leslie Downing, Mary West, Edna Defontaine, Margaret Kenney.

Grade 2—(Passed)—Freda Hall, Kenneth Attree, David Colthurst, Mabel Clayton, John Desjardines, Alice Finter, Lillian Grant, Albert Haugland, Gordon Haugland, Elsie Hipp, Kenneth Jones, Lorraine Kenney, Amy Little, Emma Nelson, Gordon Little, Helen Olson, Thelma Olson, Ina Smith, Norman Smith.

(Passed on trial)—Mary Browatzke Lloyd Cromer, Tom Olson.

## Wedding Bells

Nightwine-Stewart.

A quiet wedding was solemnized in the Catholic church at 7 a. m. Monday when Rev. Father Leray of Prince George united in marriage Caroline Stewart of Kalum Lake and Frank Nightwine of Paradise Valley. The bridal couple were attended by Mr. and Mrs. Ted Johnstone. Mrs. Von Hess played the wedding march and the choir rendered special numbers. After a wedding breakfast the happy couple left for their ranch on the Kalum Lake road.

Kenney — Andrews

At 230 on Friday afternoon at the manse, Prince George, Miss Grace Andrews, daughter of Mr. and Mrs. W. J. Andrews of Vancouver, was united in marriage to Lorne T. Kenney, the youngest son of Capt. and Mrs. D. V. Kenney, Victoria, B. C. Immediately following the wedding, which was performed in the presence of only a few friends, the happy young couple left for a motor trip to Douglas Lodge where they will spend a short honey-

moon. The bride and groom are both well and favorably known here, the former being on the local school staff for two years before going to Prince George. The groom is a brother of E. T. and L. H. Kenney. The best wishes of a host of friends is extended for their future happiness.

## TERRACE MEN PROTECTED

Employees.. Of.. Commission Will.. Be Under Workmen's Compensation Act

The local council met on Tuesday with J. K. Gordon in the chair. All the commissioners and the clerk were in attendance. The clerk read a letter from Supt. W. H. Tobly promising to have the culvert beneath the railway track attended to. Arrangements were agreed to for the inclusion of workmenmen employed by the commission under the Workmen's Compensation Act. Accounts amounting to \$158.78 were passed for payment. The poll tax by-law was completed and finally passed and the sanitary by-law was carried to its final stages.

The chairman pointed out the need for travelling on Kalum street and on Lakelse avenue. The clerk pointed out that the consent of the public works department was needed for work on those roads, and it was decided that the engineer be sent.

Miss Davis, primary teacher, left on Monday for her home in Victoria, presiding.

Dr. and Mrs. Brummitt entertained three tables at bridge on Saturday night in honor of the former's sister who is spending a holiday with them. The prizes won by Miss Mallott and Bert Walters.

Mrs. John Warne left Thursday for Sarnia, B. C., where she will spend a time assisting to nurse Miss Sibary whose health has not improved.

## Certified Seed Inspectors Work Very Important

The certification of seed potatoes has been carried on for a number of years. It has become an established and very necessary factor in the ever increasing internal and external trade in this commodity which has developed in recent years. Seed potato certification is important both from the purchaser's, as well as from the grower's standpoint. One does not have to look far back to the time when almost any potato was merely taken at its face value and planted more on its appearance than for any inherent quality productiveness it might possibly possess. On the other hand, a seed potato today in order to be classed as such must almost have a pedigree. Certification is a means to that end. Search of the many diseases affecting the potato is voluminous. The best looking seed potato might be heavily affected with serious diseases to such an extent that the crop produced therefrom would be scarcely worth harvesting. Hence the need for some guarantee preferably backed by government official standards and inspection, on which the purchaser of seed potatoes can depend, and which assures him in great measure at least, that the stock he purchases will, under normal and maximum crop, produce a satisfactory

The work performed by the Inspection Service is two-fold. First of all, each inspector acts as an extension man. He must be prepared to carry information obtained through experimental work to the grower. This information includes not only a knowledge of the disease affecting the crop but also the most up-to-date methods of disease control, to say nothing of soil types, cultivation, fertilizers, machinery, and many other phrases relating not only to the growing of the potato crop but also to other farming activities. This personal contact with the individual grower has been of inestimable value.

Secondly, the inspector has to act as medium through which the crop is certified. The official tag is given to the grower only after his crop has passed at least two field inspections and two or more tuber inspections, and been found to conform to the standard set for that purpose.

Certified seed potatoes are to-day recognized as being superior in every respect to other stock. They are practically free from serious disease which affect the yield, are more true to type should have no admixture to other varieties, and are of higher yielding quality, and are better graded. When purchasing seed potatoes ask for "Certified", and be sure the official tag is attached.

Joe Cook returned from Prince Rupert on Saturday.

Otto Von Hess left Monday for Stewart where he will be located in the future.

Mrs. W. H. Watt's health is much improved and she is spending a few days here with her mother, Mrs. H. L. Frank.

### WELCOME TO DR. TOLMIE

A large crowd gathered at the depot on Saturday evening to greet Hon. Dr. Tolmie, the new leader of the Conservative party, who passed through enroute to Hazelton. While there was only a few minutes to spare, Dr. Tolmie mounted the rear end of a truck and addressed the people on the Conservative policies regarding mining and agriculture. He talked fast and until the train started to pull out and succeeded in getting his ideas over in a remarkable manner. The new leader was given a splendid reception and made many new friends and admirers.

## The World's treasure house!

**TWENTY** years' mining in British Columbia have yielded nearly \$800-million dollars. The last ten years have increased production by 58.9 per cent.

The value of all Canada's production is \$25.70 per citizen, British Columbia's production today, if distributed, would mean \$111.96 per person annually! Our mined and treated tonnage of metalliferous ores reached a record of more than 5-million tons for 1927.

The value of the mining industry to the Province is in the distribution of money in wages, supplies, transportation services, etc. And in this respect, 1927 was a record year!

The 14,000 employees of the mining industry were paid wages totalling 23 million dollars... or nearly \$1,700 each... the highest average for any Canadian Province.

During the year, distribution of eight million dollars was made in dividends!

British Columbia mines approximately 40 million dollars worth of copper, zinc and lead, a year... more than the rest of Canada. In gold and silver, our production ranks second... in coal, third; our total annual mining production today being exceeded only by Ontario.

Sound legislation, good mining laws and low fees have encouraged this development and stimulated growth. Although the provincial

mining area has only been superficially prospected within the transportation belt, new fields are developing, new roads and trails constantly being built.

Chattering drills sink deeper and deeper into the hills... heavy ores rumble through the concentrators... fortunes come tumbling from the treasure chest of British Columbia! What was once only imagined about our mining potentialities, is now proven knowledge. Mining has become our third largest industry... showing over 67 million dollars revenue a year... proof that prosperity flourishes in British Columbia.

Capital from Eastern Canada, the United States, Great Britain, France... seeks investment. Our great wealth of production, developing so steadily during the past ten years, has established confidence and aroused keen interest in British Columbia's mining future the world over.

Read these announcements and understand your province's progress... clip them out and send them to friends. If you desire extra copies of these announcements a note to this newspaper will bring them. Advertise your Province.

## Dr. Tolmie Heard

Continued from Page 1

population of B. C. was not greater. We are in a wonderful position to do business with the world. We have cheap water transportation to the orient and to South America or Europe or eastern Canada via the Panama. We have tremendous resources, and he said it would be his aim to increase our production, if elected to head the next government. He would go after bigger business, greater export business, greater home production in mining, timber, agriculture and in manufacturing.

First, B. C. must learn to feed herself and stop the importation of meats and other food products that can be produced here. He proposes to increase agricultural production and to provide local markets; to encourage co-operative selling and make our own people prosperous and happy. That he claimed was the very best immigration policy of all.

He proposed, in farming communities where conditions were favorable, but population light, to fill up those communities and then establish creameries or canneries, or whatever industry was necessary to manufacture the product of that community into a finished product that could be marketed. He was thoroughly with the farmers of this country. He was born on a pioneer farm and knows the uphill fight it is to make a farm out of a bush, and one of his first endeavors will be to put agriculture on a sound social foundation.

He will make the path of the prospector easy, first by removing the \$5 free miners license fee; extend free instruction classes for prospectors and distribute samples of various classes of ores so that prospectors will be made familiar with them. He will continue and extend the policy of trails and roads. He will change the present system of taxes on mines by abolishing present taxes and tax only the mine that makes a net profit of \$10,000 in a single year. Until a mine was paying there would be no taxes.

He believed firmly in developing our resources for the benefit of our own people, and not for the people to the south, and every encouragement would be given capital to establish industries of all kinds.

He believed in good roads for autos and at the same time look after the side roads for the farmers who have hauling to do. He would stamp out patronage, and especially would he change the system of having to join a political association before one could get a job on the roads, a job that all were entitled to if they wanted it. If he is chosen to head the government he would not allow any man to be discharged so long as his work was efficient. He would carry out all present contracts and all public works under construction. Those rumors of undertakings being stopped were pure bunk. He would be ready at all times to deal with a railway company or with capital for the disposal of the P. G. E., or its successful completion or operation. He believed that a connection by rail between the Peace River country and the Canadian National railway was most important and that all that business should be saved for our Pacific ports rather than have it go via Fort William.

In conclusion Dr. Tolmie paid a warm tribute to Frank Dockrill, the Conservative candidate, and asked the people of this district to return him on July 18 to represent them at Victoria in the Conservative government that would at that time take up the reigns of government. He referred to the excellent candidates the Conservatives had through the province and also to the fact that not one of the six Liberals in Vancouver was seeking reelection in Vancouver. He was confident that the Conservatives would elect six men in Vancouver, and he wanted Frank Dockrill from Skeena, a successful farmer and a man of high

character and well known to all.

The meeting closed with the National anthem.

## Scientifically Designed Balloon Tire Tread

The Firestone tread was not designed with large, massive projections for appearance or to make plausible sales argument. On the contrary, the projections of the cross-and-square tread are small and the rider strips narrow, permitting the tread to yield to irregularities and cling to the road, giving the greatest non-skid surface.

By means of the exclusive Firestone Gum-Dipping process every fibre of every cord is saturated and insulated with rubber, to withstand the extra flexing of the Firestone tread.

If you want the economy, comfort and safety of Gum-Dipped Tires—see the nearest Firestone Dealer.

(81)  
The Duchess of Bedford, latest addition to the Canadian Pacific's fleet of passenger liners on the Atlantic, is the first of four cabin class vessels being constructed for the Canadian Pacific to be added to the company's service on the St. Lawrence route, and they will also be used for winter cruise purposes.

Winnipeg. — According to statistics recently collected from 248,162 farms, there are 6.8 horses to each farm in Manitoba and a tractor to every 4.6 farms in the province. Each Saskatchewan farm has 10.2 horses and there is one tractor to every 4.7 farms, in Alberta there are 10.8 horses to each farm and one tractor to every 7.5 farms.

Ottawa, Ontario. — Employment stood at a higher level in Canada in April, 1928, than in any April as far back as records go. Returns from 6,191 employers of labor with working forces aggregating 842,940 persons, showed the employment index standing at 101.1, as compared with 96.2 in April, 1927, and 84.1 in April, 1926.

Winnipeg.—Homestead entries in the four Western Provinces for the first quarter of the year totalled 1,816, as compared with 1,030 in the first quarter of 1927. Filings in Manitoba were 107, as compared with 138; in Saskatchewan 655 as against 513; in Alberta 982, as compared with 367; and in British Columbia 72, against 12.

Earnings and expenses statement of the Canadian Pacific Railway for the month of April, issued from headquarters of the company, show net profits up \$150,944.85, as compared with April of last year. Net profits for the four months to end of April are shown increased by \$1,802,617.71 as compared with the same period of 1927.

The English Rugby League Football team, at the present time touring Australia and New Zealand, is scheduled to arrive at Vancouver on P. M. S. Niagara, September 14, and will play a game there next day, leaving on the Trans-Canada after.

## Short Stories

### Close to Home

Malik George resumed hauling poles  
the first of the week. The road up  
Nine Mile is now in pretty good shape  
as far as the pole camp or a little be-  
yond.

A daughter was born on Monday,  
June 25, to Mr. and Mrs. Roy Guss,  
of New Hazelton.

Arthur Wrinch arrived home the  
first of the week from Kingston, and  
will spend the summer here.

There was a fair crowd at the par-  
cel tent in Hazelton on Saturday after-  
noon. There was a shortage of per-  
cels. The affair was under the aus-  
pices of the W. A. to the H. H.

Haying is now in full swing in this  
neighborhood and while the crop is  
light the farmers hope to get a second  
crop if the rain comes in a reasonable  
time.

Dr. H. C. Wrinch will address a pub-  
lic meeting in the Community Hall,  
New Hazelton, on Friday evening next  
when he will discuss the political is-  
sues of the day. An invitation is ex-  
tended to all to be present.

## Health Service

Of the Canadian Medical Association  
PREVENTION OF HEART DISEASE

In Canada, during the year 1926,  
over 11,000 persons died of heart dis-  
ease, the total deaths from all causes  
being approximately 107,000.

Heart disease which kills in adult  
life is, in a large percentage of cases,  
due to conditions which occurred in  
early childhood. The prevention of heart  
disease depends upon the proper care of  
the growing child.

Heart disease seems to be associated  
with the type of infection we call  
rheumatic. We do not know a great  
deal about this rheumatic infection but  
we know something of real value in  
the prevention of its serious results.

Growing pains in children should be  
considered as evidence of a rheumatic  
definite attacks of rheumatism, chorea  
(St. Vitus' dance) and heart condi-  
tions.

Sore throat or diseased tonsils with-  
out soreness of the throat are evidence  
of a possible centre or focus of the  
rheumatic infection.

Chorea is rheumatic infection. At  
first it may be nothing more than a  
restlessness or fidgetiness, the jerky  
movements coming later.

All such cases should be placed un-  
der the family physician for treat-  
ment if heart disease is to be prevent-  
ed.

All those who have damaged hearts  
do not die of heart disease. If proper  
care be taken, they usually live long  
time and die of some other malady.  
It is those persons who will not, or  
practically cannot take proper care  
who grow progressively worse.

Questions concerning health ad-  
dressed to the Canadian Medical Asso-  
ciation, 184 College St., Toronto, will  
be answered. Questions as to diag-  
nosis and treatment will not be an-  
swered.
